Reporting and Data Collection

Project Participants will collect and report various metrics regarding Opioids. Users who are responsible for reporting that data will use our integrated data portal to report, view, and track their metrics. [Click here to download The Data Portal User Guide.]

New User Registration

In order to access the data portal, you must first create a HAP Opioid LAN user account. To create an account, please [click here], or if you already have an account, please [sign in]. If you have any questions or comments regarding the access to this site or the data portal, please contact us.
